

Quiet Lanes Project in Hasketon

Dear Resident,

Hasketon Parish Council is exploring the possibility of designating additional lanes in the Parish as 'Quiet Lanes' and would like to get your feedback. Three lanes, Hasketon Road, Whitehouse Farm Road and Mill Lane have been provisionally registered. All three are partly in Burgh, with whom we hope to share the quiet lane designation.

This is part of a Suffolk County-wide project which is being funded substantially by grants from Suffolk County and East Suffolk District Councils.

Quiet Lanes

- are lanes where walkers, horse riders and cyclists can enjoy the lanes in greater safety and encourage drivers to watch out for more vulnerable road users.
- help to maintain the rural nature and tranquility of our lanes for the enjoyment of all.
- do not impose traffic restrictions, and are not enforced, but advisory signs are placed on each lane to clearly show motorists that the road is a shared space.

Green: new proposal

Orange: previously designated

White arrow: Parish boundary with Burgh

Broken green line: part of lane within Burgh

In Hasketon, we have previously nominated Chimney Pot and Pinner's Lanes, Bealings, Top/Low and Shrubbery Roads and Riverside as suitable for Quiet Lanes and these are moving through the process for formal designation. These are marked in orange on the map.

We feel that adding these 3 additional lanes would be of real benefit to the village and would like to get your feedback. Please contact David Keeble, Parish Clerk at clerk.hasketon@gmail.com or at 1 Top Street, Martlesham, Woodbridge, IP12 4RB, as soon as possible by April 2nd 2021. More detailed information and open consultation is planned for a later date.

Alastair McWhirter – Chair of Hasketon Parish Council
